

INTRODUCING EYPtalk ...

Dialogue, discussion and debate are central to the ethos of the European Youth Parliament: we firmly believe that it's good to talk. That's why we're launching **EYPtalk**, our new online forum where you can share your ideas about the future of Europe.

- **Talk** to **young people** from across the UK
- **Talk** to young people from all over **Europe**
- **Talk** to **politicians**
- **Talk** to policy **experts**
- **Talk** to members of the **EYP**

Going live in early January EYPtalk will be your opportunity to contribute to the ongoing debate about what direction Europe should take. A number of topics will be up for discussion so there is something for everyone. Your ideas will be heard by politicians and experts across the European Union and will help us create resolutions to be debated across the UK in 2007 and 2008.

To make your voice heard register now at **www.eyptalk.net** and join the EYP community.
